

COBWEBB ROADSHOW SERIES: BRINGING OUR TECHNOLOGY TO LIFE, IN FRONT OF YOU

your opportunity to see what our technology can really do, up close and personal, ask questions and engage with other customers

ROBOTIC PROCESS AUTOMATION (RPA)

One of the newest solutions we provide is Digital Workforce. This new service delivers huge time savings with massive cost benefits. Every business has a series of mundane rules-based tasks that must be performed as part of day-to-day operations. These tasks are often repeated many times in the course of a business day and require interacting with different systems. This is absolutely perfect for our digital workers.

At our RPA Roadshows, we will show you the journey we take from the initial selection of a business process to deploying a fully operational digital worker running that process. We will demonstrate how it works, show a real-life use case in operation and provide a practical guide to the market and getting started. We hope to help you envisage the potential within your business.

WHAT TO EXPECT

- REAL USER EXPERIENCE
- ENGAGE WITH OTHERS
- ASK TOUGH QUESTIONS

ENGAGE WITH OTHER CUSTOMERS

A side benefit of our roadshow is the chance to meet and engage with other customers, find out how they are using Cobwebb in ways you may not have considered.

SEEING IS BELIEVING?

We talk to our customers everyday about the business benefits our solutions can deliver. However, we find when our customers see solutions in operation it really brings the benefits to life in the context of their own business.

WHO SHOULD ATTEND?

Executives looking for operational efficiencies / savings. IT teams looking to provide quick automation wins to users. Heads of departments looking to increase team productivity.

SIMPLER, SMARTER, MORE ENJOYABLE BUSINESS PROCESSES
