Cobwebb Fax
business documents faxed reliably, conveniently and securely

Allowing faxing from IBM i, with optional web browser interface
—
COBWEBB FAX //

is the fax distribution module for Cobwebb Document Management. IBM i spooled files can easily be selected, reformatted and faxed from the IBM i server.

Cobwebb Fax enables IBM i printed documents and files to be sent by fax, giving customers and suppliers faster access to business documents. When used with Cobwebb Document Management, IBM i printed files can be selected, reformatted and faxed.

· Cobwebb Fax transforms IBM i spooled files into faxes

· Add the fax number from IBM i database or fax directory

· Create and add a form overlay and company logo

· Select font from IBM i font file

· Complete fax retry, queuing and logging system

Cobwebb Fax can be configured to use either the Ascom Fax Modem connected to an IBM i comms port, or using IBM Fax/400. IBM Fax/400 uses either an IBM Internal Fax Modem (2751, 2761, 2771) an external IBM ECS Fax Modem, or the IBM Integrated Fax Adapter (IFA).
